From the stand-point as representing the ruling race, we could not give better advice than that given above; and things official, and the relations between officialdom and the European residents, would undoubtedly run more smoothly were more regard given to the advice hero tendered. When, however, the Ex-Official proceeds to descant upon the kind of hearing to be given to the ruling race, he shows at once the bias which an official experience seldom fails to impart. Curiously enough, one invaluable truth is sandwiched into his remarks in an inexplicable way; but it is not any the less valuable, or any the less true. It is this :- What is wanted is rether the prompt fe-enactment of the Contagious Diseases Act than more "unofficial representations" in the Council and hearing in "imporial affairs." About the desirability, or rather the absolute nccessity, of the re-enactment of the G.D.O., no reasonable man ever had the slightest shadow of a doubt. But it would never occur to the mind of any one save an official to bracket that desirable object with the petition of the Hougeong residents for extended representation.

Hore, therefore, we are bound to take issue with the Ex-Official. Although he speaks manfully about the right of the rul ing race 'to have their say he cannot get away from the invetorate ballef of the official that it is the bounden duty of the A Hockey Metoh will be played at the powers that be to square the popular Happy Valley to morrow (Thursday) siterrepresentatives, and avoid public discus- room between Club and Shipping.
